

Pharmacy Intern/ Pharmazeut im Praktikum (PhiP)

PPD, part of Thermo Fisher Scientific have exciting opportunities within our clinical Study Start-Up team for Pharmacy Interns in Germany (6 month placements).

As a Study Start-Up Intern, you will have the opportunity to gain professional experience in the regulatory field of clinical research in the DACH region (Germany, Austria and Switzerland). The practical experience that you will gain within this internship is of great importance for the 3rd state examination.

Our internship opportunities offer...

Work within a leading, global organisation

Role-based training and industry experience

Mentoring initiatives

Ability to be creative and agile

We'd love to hear from candidates who have:

- Successfully completed their 2nd state examination as part of the pharmacy degree (according to §1 AAppO)
- Effective communication skills (verbal and written) in German and English
- Excellent time management, planning and prioritization skills
- Skills working in a team environment and independently
- Curiosity and enthusiasm with a growth-oriented mindset
- Fast decision-making ability and result oriented approaches
- A creative, flexible & agile working attitude
